The Nower: comprises around 40 acres of mixed woodland with a large open area near the start at the east side of the map. The area rises from North to South to a sandy ridge 500 metres long running east – west across the map. The area contains an extensive path network with some intricate areas of contour detail. Summer vegetation growth, particularly ferns, is pronounced in some areas but the control locations have avoided the worst.

Last minute changes: Please visit the MV Web site before travelling to check for last minute changes or new information about this event. www.mvoc.org

Results: Will be available on the club web site as soon as possible after this event.

***Score Event:** "Score" just means that there is no set course. Your map will show a number of controls, but you don't have to visit them all. You get points for each control you do visit, and lose points if you take more than an hour.

****Linear** course is one where the control circles are linked by a line on the map and must be visited in numerical order. Fastest completed course wins
