

Map showing parking roads and event locations

Legend

A = Assembly, Enquiries, Download, Traders etc

S = String course

The parts of the forest shown as white space (no contours) on this map are out-of-bounds except while competing on your course. Spectators may approach the West finish only along the straight line from the nearest forest road junction.

The part mapped in detail may be used for warm-up or taking short cuts. The String course area is the nicest part; please do not impede or intimidate the small people (and don't trip over the string).
