Orienteering in Ranmore Common

Orienteering is a fun way to experience the great views, wildflowers and wildlife of Ranmore Common, an area managed by National Trust.

There are ten checkpoints.

Can you find them?

Helpful Hints

Starting off

Use a map to find your own way to ten checkpoints. Their position is indicated on the map by the centre of each red circle.

The Map

The map has been specially prepared by Mole Valley Orienteering Club. The colours and symbols used are unique to orienteering and are explained in the key on the map. The scale is 1:10,000, which means that 1cm on the map is equivalent to 100 metres on the ground.

How do you know you have found a checkpoint?

On the ground there are wooden posts, with red and white markings, bearing the corresponding number and a letter unique to each site.

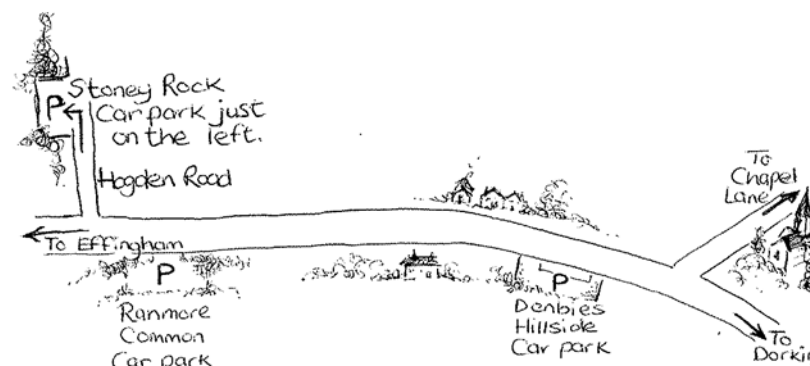

At each checkpoint make sure that it is the one you are seeking by looking for the number on the post. Then write down the unique letter to record that you have found it.

Description of Checkpoint	Letter	Description of Checkpoint	Letter
1 Path bend		6 Depression, north side	
2 Knoll, east side		7 Thicket, south side	
3 Thicket, south side		8 Knoll, south west side	
4 Path bend		9 Path bend	
5 Depression, south side		10 Path junction
